

About the Hosts

NeuroNetPro is an education and consulting organization focused on improving clinical performance through operational innovations. Formed from a consortium of fifteen successful neurologist owned practices distributed across the United States, its collective expertise lies in stellar implementation of comprehensive centers of excellence, use of "team-based" care models, continual improvement in workflow for business sustainability, effective operation of adjunct diagnostic and treatment services, and has become a sounding board for ideas and opportunities. **NeuroNet Pro, where "Connect – Collab – Create" is a way of life!**

The American Society of Neuroimaging (ASN) has been educating practicing neurologists, APPs, residents, fellows, and technologists in the field of neuroimaging since 1977.

ASN offers a continuum of learning throughout the year, including multiple face-to-face highly interactive conferences around important current hot topics, bi-weekly case-study and didactic webinars, the monthly Journal of Neuroimaging, visiting preceptorships, and formal neuroimaging fellowships. While the winter session collaborates with NeuroNetPro for the outpatient sector, the summer session will focus on imaging in the acute care setting (see asnweb.org or contact jtaie@gmpartners.org for details).

**PLEASE JOIN OUR WINTER EVENT IN ORLANDO:
A UNIQUELY COLLABORATIVE APPROACH TO
INNOVATING IN PRACTICE AND NEUROIMAGING.**

Connect - Collab - Create

JANUARY 26-29, 2023
Caribe Royale, Orlando, Florida

NeuroNet | pro

"NeuroNet works to connect all stakeholders in the journey to patient care. This collaboration has allowed us to create efficient and more cost effective outcomes for the entire patient population."

Christine Mann, MBA,
Managing Director NeuroNet

"Given its ubiquitous role in clinical decisions and research, a strong working knowledge of neuroimaging is medically and legally important to all neurology providers. Run by neurologists and neuroscientists, ASN provides a unique clinician oriented approach to staying current with this complex and vital tool."

Joseph V. Fritz, PhD
Incoming President of ASN

Welcome

To NeuroNetPro-ASN 2023 Winter Meeting

Based on enthusiastic reviews from last year's meeting, we once again bring you a special joint meeting of the American Society of Neuroimaging and NeuroNetPro, featuring engaging and solutions-oriented interactions with experts from private practice, industry, clinical science, informatics, payers, and more!

"I am going to be a regular attendee for sure!"
Junaid Khalil MD, Neurocritical Care Neurologist,
Founder AI NeuroCare

"This may be the best conference I've ever attended!"
Syam Palakurthy, Samacare

"The session on value based care with physicians, administrators and industry was intriguing."
Melissa Kotrys, Strategic Health Information Exchange Collaborative

"I have been in this business for 25 years and have never seen a meeting in which physicians from all around the country are including pharma in strategic discussions."
Michael Gilbank, Associate Director Neuroscience Accounts, Novartis

"If you're interested in having a vibrant sustainable practice, this is the conference to attend."
Thomas Schenk MD, Former CMO Blue Cross, ED Population Health

"The ASN Meeting is essential, as it supports knowledge and skill transfer among neuroimagers and provides an insight into the latest technologies that will help enhance patients' experience and management."
Laszlo Mechtler MD, CMO DENT Neurologic Institute, Past President ASN

"For a student, aspiring neurologist or neuroimager this is a great opportunity to learn and meet experts from all around the country."
Amirreza Alijan, Medical Student

We welcome forward thinking sponsors that seek to understand the complexities, disparities and economics in healthcare delivery. Sponsors will participate in co-creating novel solutions aimed at transforming the practice of medicine through advanced neurodiagnostics, precision therapeutics, informatics, and practice management.

Sponsorship Opportunities

"Innovations Hall" Returns! Featuring New Technologies for Precision Medicine and Improved Business Practices, Keynote Addresses on the Future of Healthcare Delivery, and many opportunities for casual interaction during the day and social events later in the day. All sponsors are welcome to attend workshop sessions and contribute to identifying solutions to topical issues.

Sponsorship Level:	DIAMOND \$35,000	GOLD \$25,000	SILVER \$10,000	BRONZE \$5,000
Booth	x	x	x	x
Meeting App	x			
Digital Ads (NN/ASN Website)	x	x	x

ADDITIONAL à la carte OPPORTUNITIES

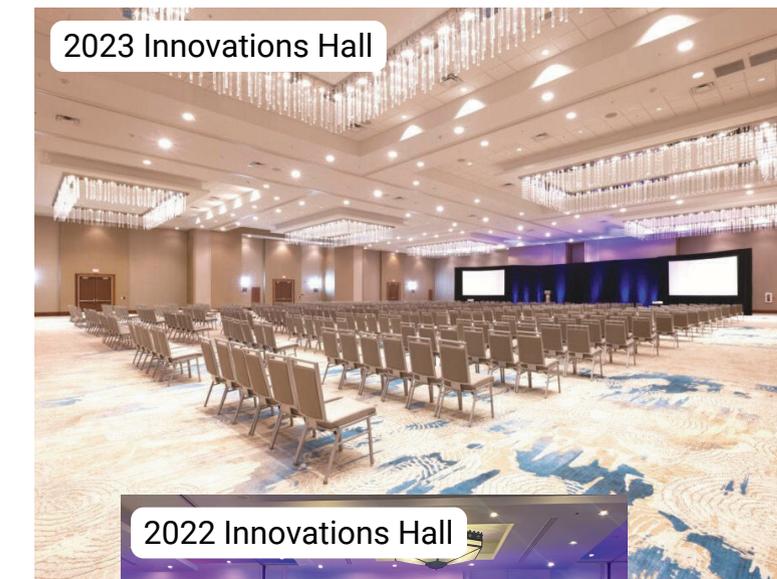

(Does NOT include Exhibitor Table)

- Room Key Sponsor \$5,000
- Bag Sponsor \$7,000
- Lanyard Sponsor \$5,000
- Refresh & Recharge Station \$3,000
- Media Room Sponsor \$3,000
- Stage Sponsor \$3,000
- Step & Repeat (multiple) \$2,500
- Specialized Branding - price upon request

Deadline to secure sponsorship 12/1/2022

New This Year
 SPECIAL CME TRACK COMPLETELY DEVOTED TO APPS!
 CAREER SESSIONS AND JOB FAIR FOR PROVIDERS IN TRANSITION: RESIDENTS, APPS, NEUROLOGISTS

Program Highlights

Imaging and Information Technology Innovations

Imaging Fundamentals: Case based approach to what-to-order-when, protocols, documentation, authorizations, understanding radiology reports, basic image interpretation, using images with your patients

Neuroimaging and novel biomarkers in the precision diagnosis, management and treatment of adult and pediatric neurologic disorders

Informatics for clinical decision support, patient identification for treatments and clinic trials

Robotics, AI, machine learning and other advances in image acquisition for speed and precision

Running Imaging within a clinical practice: more realistic than you may think.

Practice Innovations

Roundtable Discussions on topical, intersecting issues with clinical peers and industry leaders

Technology in Practice: Practice Analytics, Tele-Neuro, Chat-Bots, Scheduling Wizards, Intelligent Automation, tools for structured capture of physiologic data, remote monitoring, reimbursement considerations

Developing subspecialty centers of excellence, and the role of research and data

Payer relation best Practices, documentation tips, and technology, evolving to value based care models

Entrepreneurialism, Collaboration, Centers-of-Excellence Models in Community settings

New Practice Start-Up: Benefits & Impediments

Driving access with teams, technology and culture: Onboarding, business considerations, benefit to Patients, Providers and Practice

Compensation models, contracts, opportunities, risks and expectations

Job Fair and Networking for APPs, MDs, trainees, and managers (by Neurology Practice Consortium)
