

ANNUAL SUMMIT

JANUARY 30, 2025 - FEBRUARY 1, 2025

NASHVILLE, TENNESSEE

PROSPECTUS

2025

WELCOME

Welcome to the 2025 NeuroNet Pro Annual Summit!

We are excited to invite your organization to collaborate with a diverse group of healthcare professionals. Our meetings are known for being refreshingly inclusive, welcoming healthcare professionals, industry experts, payers, information systems specialists, and other stakeholders who provide diverse and valuable insights.

This year's theme is "Neurology's Time to Shine!" With an enormous pipeline in breakthrough neurologic therapies, diagnostics, and informatics, all intent on keeping millions of Americans out of hospitals and restoring quality of life, the community neurology sector is superbly positioned to lead the way in patient-focused accessible healthcare.

Here are some highlights for our 2025 program in Nashville:

- Our expert Keynote Speaker will bring exciting insights into the neurology market. Based on a vast therapeutic pipeline, most notably tied to Alzheimer's, he will discuss the difference these therapies are making for patients and the reasons why private practice should lead the way to unlocking adoption across the care continuum.
- Updates and how-to sessions on operationalizing new Alzheimer's therapies.
- Expert imaging panels and neuroimaging education that offer turnkey solutions and critical information on incorporating imaging into your practice to reduce liability and improve patient care.
- Exciting progress on data solutions, from workflow improvement and business intelligence tools to patient identification, and driving new solutions with real-world evidence.
- Optimizing ways for attendees to connect, collaborate, and find vetted resources to optimize workflow and revenue.

We believe that the private practice community sector inherently offers value through superior patient access and cost-effective care. By working together, we can leverage collective buying power and influence, share best practices, and pool resources needed to compete in an increasingly sophisticated world.

We appreciate your continued support and commitment to improving and protecting the outpatient sector. We hope you can join us in Nashville!

Sincerely,

Christine Mann, MBA
David Evans, MBA
Joseph Fritz, PhD

ABOUT US

NeuroNet is a network of neurology groups dedicated to the long-term viability of the community sector. We are structured into two entities: **NeuroNet GPO** and **NeuroNet Pro**.

NeuroNet GPO leverages the collective buying power of our network to assure access to favorable pricing and business support tools. We have grown to 80 group practices representing over 1,000 providers and collective pharmaceutical sales in excess of \$600M.

NeuroNet Pro aims to improve performance by facilitating the sharing of best practices, vetting industry solutions, and connecting various stakeholders to foster collaborations. Our core membership begins with those who buy and sell through the GPO, but we are open to all organizations and individuals who advocate for the inherent value of the private practice model for neurologic care.
